

Additional File 2.

The pre-notification letter to adolescent born very preterm and controls.

Hi,

Thank you for being a part of the prospective follow-up study in very preterm born infants (PIPARI). The study continues now at 17 years age point, and we will send an info letter to you and your parents soon. We hope you and your parents will continue to participate – We appreciate your contribution!

Yours sincerely,

PIPARI-researchers ([www.utu.fi/pipari](http://www.utu.fi/pipari))
